EDUCATION

University of Arizona

- Bachelor of Science in Applied Computing - Emphasis in Software Development.

EXPERIENCE

IT Technical Support Specialist | Northwest Real Estate Capital Corp. | 2022 - Present

- Migrated company from Google Workspace and an on-premises local domain to Office 365 and Azure by building out users, groups, policies and devices in a new Microsoft Azure Tenant.
- Enrolls and deploys Windows and Android devices through Microsoft Intune while managing the devices through Atera RMM.
- Efficiently troubleshoots a variety of hardware and software related technical issues on workstation PCs, security camera systems, and telecommunication systems.
- Creates custom SQL reports for Yardi databases.
- Drafted and implemented a formal Incident Response Plan and leads the Incident Response Team and training.

Inventory Coordinator | JoAnn Fabrics and Crafts| 2021 - 2022

- Store manager who has guided and delegated team members throughout shifts.
- Asset controller, ensured registers and cash accounts were balanced and inventory was appropriately ordered.

Box Office Agent | Grand Sierra Resort | 2019 - 2020

- Represented the Grand Theatre entertainment venue as a sales agent and provided patrons with a seamless ticket buying experience.

Disney College Program | Walt Disney World Resort | 2018

- Cast Member, Stocker, and Trainer for EPCOT's Liberty Inn quick service restaurant.
- Recognized by leaders, peers, and guests for commendable customer service skills and work ethics through Cast Compliments and Grape Soda Recognitions.
- Trained new and transferring Cast Members to perform their roles efficiently and effectively at Walt Disney World Resort while following Disney's Four Keys model of customer service.

Information Technologies Lead | Joe Crowley Student Union | 2016 - 2019

- Team member with contributions on several capital improvement projects and routine maintenance of workstations and embedded systems on an enterprise network.
- Programmed building-wide digital signage and meeting room scheduling systems using JavaScript and RSS feeds.
- Established and maintained network topology consisting of multiple network hubs and switches, as well as a three-phase power system, for large scale events including the Esports club's annual 24-hour LAN party marathons.
- In 2019, promoted to Information Technologies Lead to guide team members with projects, tasks, and training.
