EDUCATION

University of Arizona

- Bachelor of Science in Applied Computing with an emphasis in Software Development.

EXPERIENCE

IT Technical Support Specialist | Northwest Real Estate Capital Corp. | 2022 - Present

- Migrated company from Google Workspace and an on-premises local domain to Office 365 and Azure by building out users, groups, policies and devices in a new Microsoft Azure Tenant.
- Enrolls and deploys Windows and Android devices through Microsoft Intune while managing the devices through Atera RMM.
- Enforces conditional access policies through a Zero Trust SASE solution.
- Efficiently troubleshoots a variety of hardware and software related technical issues on workstation PCs, security camera systems, and telecommunication systems.
- Creates custom SQL reports for Yardi databases.
- Drafted and implemented a formal Incident Response Plan and leads the Incident Response Team and training.

Disney College Program | Walt Disney World Resort | 2018

- Cast Member, Stocker, and Trainer for EPCOT's Liberty Inn quick service restaurant.
- Displays efficiency and versatility with experience working and training in a variety of roles.
- Recognized by leaders, peers, and guests for commendable customer service skills and work ethics through Cast Compliments and Grape Soda Recognitions.

Information Technologies Lead | Joe Crowley Student Union | 2016-2019

- Team member with contributions on several capital improvement projects and routine maintenance of workstations and embedded systems on an enterprise network.
- Programmed building-wide digital signage and meeting room scheduling systems using JavaScript and RSS feeds.
- Established and maintained network topology consisting of multiple network hubs and switches, as well as a three-phase power system, for large scale events including the Esports club's annual 24-hour LAN party marathons.
- In 2019, promoted to Information Technologies Lead to guide team members with projects, tasks, and training.

TECHNICAL SKILLS & ABILITIES

Software Development

- Proficient in C#, C++, Java, Python, HTML, CSS, JavaScript, and SQL.
- Experienced in use of Unity, Android Studio, Unreal Engine 5, and Visual Studio Code as well as Git for repository and version control through both GitHub and Azure DevOps.

Networking

- Experienced use of Nmap for remotely identifying network connected devices across multiple subdomains and Wireshark for assessing network activity.
- Understanding of VLANs in both office and home settings, having created separate VLANs for security cameras and other IoT devices.

Communication and Leadership

- Hosts live local and remote training sessions for new software and systems introduced to Northwest Real Estate.
- Keynote presenter at Northwest Real Estate Capital Corp's 2022 and 2024 company conferences, providing demos and updates on information security and systems.
- Trained new and transferring Cast Members to perform their roles efficiently and effectively at Walt Disney World Resort while following Disney's Four Keys model of customer service.
